

## In Groups

### Using the jrwolf.sharkattacks:

1. Find the AGE, YEAR, and SEX of all shark attacks in EGYPT. Order the results from oldest to newest by year. (Make sure to use the correct case for 'EGYPT')
2. Find the AGE, YEAR, and SEX of all shark attacks where the victim was Spearfishing (Make sure to use the correct case for 'Spearfishing') in the BAHAMAS (country = 'BAHAMAS'). Order the results from newest to oldest by year.
3. Find all fields for females (SEX = 'F') attacked while Surfing in AUSTRALIA.
4. Find the AGE, YEAR and ACTIVITY of the 3 OLDEST MEN fatality attacked (FATAL = 'Y') in the USA.
5. Find the COUNTRY and AGE of the 3rd youngest person attacked by a shark.

**Each person needs to email me their SQL and results (use SET ECHO ON;)**

**My email is jrwolf@ilstu.edu SUBJECT: Sharks**
